

JUN-AIR®

A BRAND OF **GAST**

INTRODUCING THE **NEW** 120R QUIET & OIL-LESS COMPRESSOR SYSTEMS

120R-40B

Replaces: OF1202-40B

Item 1203310 Replaces 1613310 & 1613337

120R-40BQ3

Replaces: OF1202-40BQ3

Item 1203560 Replaces 1613561 & 1613560

PORTFOLIO EXPANSION

120R Systems include the same great plug-n-play features of the outgoing OF1200 Systems, but benefit from our most powerful rocking piston compressor ever.

Higher Performance versus OF1200

- Up to 30% improvement in air flow and up to 20% reduction in air tank pump-up time

Easy to Maintain

- PM and Service Kits are available with online instructional videos
- 120R Compressors were designed to retrofit into existing OF1200 Systems with ease

Designed for the Global User

- Dual certified ASME and CE approved tanks
- Able to operate with a lower supply voltage, up to 22% reduction in rated voltage, or 180 volts

Lighter, More Efficient

- Weight reduction of 10 lbs. (4.5 kg)
- Up to 8% reduction in power consumption and up to 5% reduction amp draw @ 60 Hz
